Visiosense

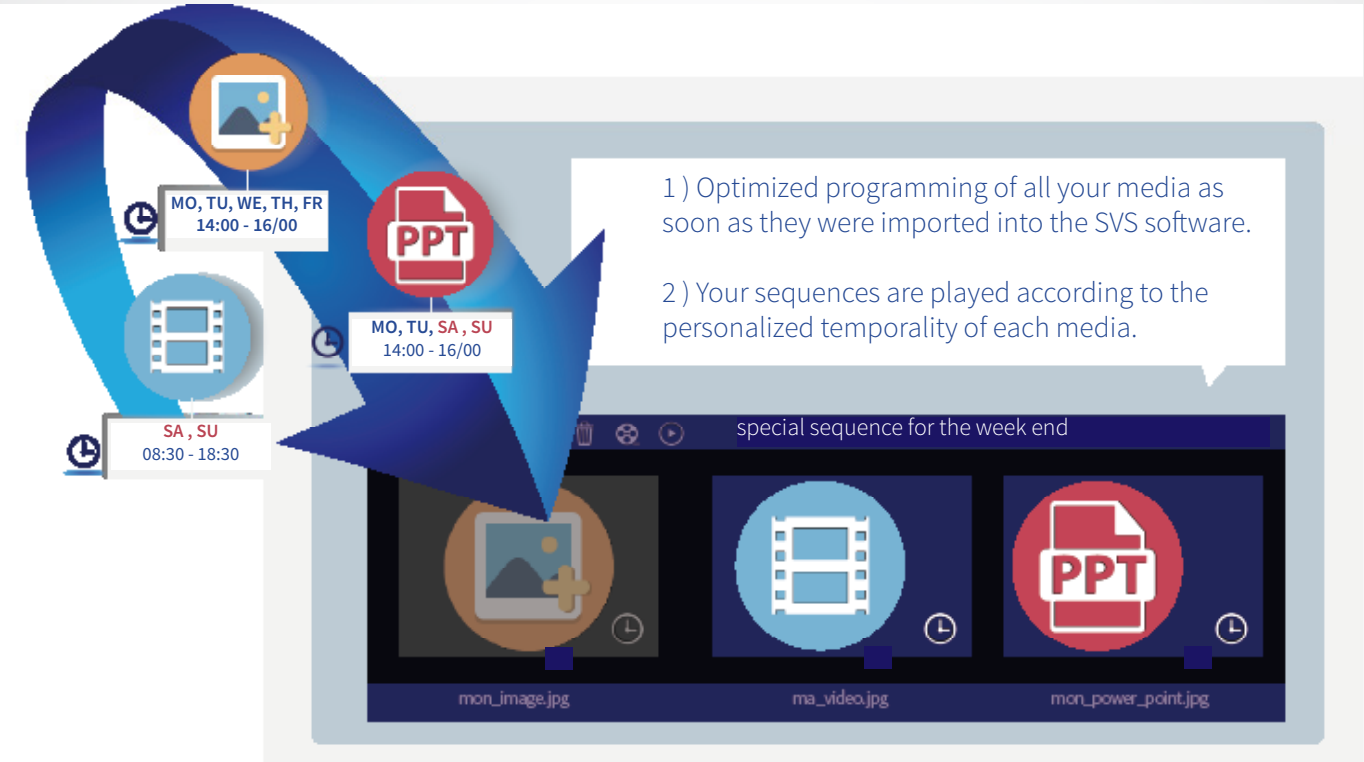
Thanks to the new «Campaign» tool,
Programming your media has never been so fast!



CAMPAIGN TOOLS

To add broadcast campaign settings to the selected media, click the button to add the broadcast campaign settings to the media:

The window opposite appears in order to enter the period of diffusion of the media:

To set the period you must enter a start date and an end date, the weekdays allowed if necessary and the time slot.

Settings can be duplicated from those of another media by pressing the button «Import» located at the top left.

The settings can be deleted by pressing the «Delete» button located at the top left.

NB: the time slot can be declared in descending order (eg 22:00 - 02:00); in this case the media will play from 00: 00h to 02: 00h and 22: 00h to 00: 00h.
