

Key features

With Media On Demand, the VsBox automatically sets up an interactive VOD interface, based on the active sequence. Your playlist is no longer played sequentially but each media is presented as a thumbnail: up to 5 independent selection areas.

01 FOR A SIMPLE AND EVOLUTIVE INTERACTIVE DISPLAY

From your screen, select a media to publish

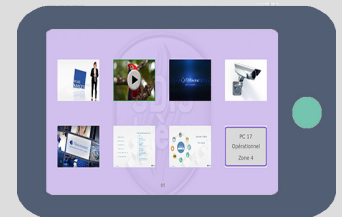

A navigation bar appears in the media

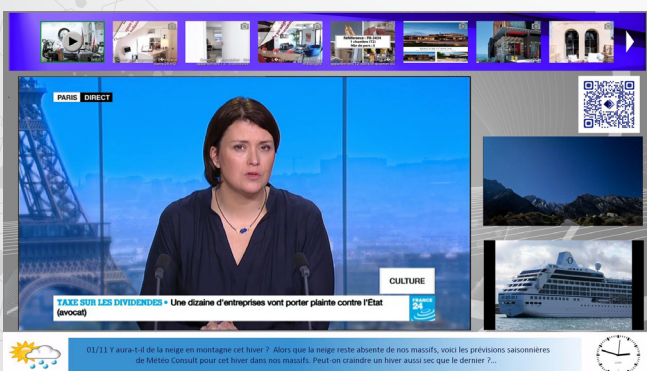

AND / OR

Flash the QR code to go directly on one of the two pointing devices

02 CUSTOMIZATION OF MEDIA ON DEMAND

- Ability to add 4 banners
- Many customization possibilities
- The selection areas are resizable according to the need.
- The selected media can then play itself in full screen or in an area of the screen.
