

Key features

At the reception desk of the establishment, a visitor form is entered on a tablet or touch terminal. This management tool allows the **counting of the people** present on the site and the edition of reportings. The evaluation followed by a comment makes it possible to know the **needs and expectations** of your visitors.

VISITOR REGISTRATION FORM

it is possible to archive in the computer system, access history, to ensure traceability and to allow the counting of people.

- Customizable form
