# Visiosense

Key features

Manage your large scale displays with the standard VsBox. Applications for **XXL surfaces** ie : monitoring screens for the operational, control, information and command rooms, security etc.

SPREAD ON A XXL DISPLAY SURFACE

The wall can be realized in two ways:
• By simple chaining of the screens
• Or by adding a controller (optional)
  to increase the resolution.

The VsBox provides 4K in full surface with more the flexibility of a partition of the wall in 4 zones full HD. Inlay of 4 banners maximum

sources:
• Main DisplayPort 1.2 Input: 4096 x 2160 @ 60fps
• An HDMI 1.4 input

The user interface is very intuitive and the VsBox provides programming and configuration dynamic multitide of display scenarios on the wall.
