

IN SHORT

The user is able to publish skillfully a large amount of media thanks to a server. Then each VsBox-Lite synchronizes periodically on its own channel.

01 VSBOX LITE

- ▶ Low cost
- ▶ Plug and Play
- ▶ Full screen display
- ▶ Low consumption

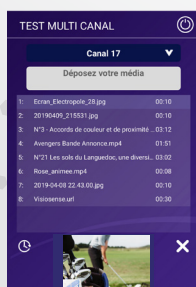

02 POSSIBLES MEDIA

- ▶ Pictures / Photos
- ▶ Videos
- ▶ Urls / Internet streams

03 AVAILABLE WEB INTERFACES

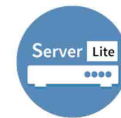

The **wPush** available on smartphone or tablet allows instant publication of your snapshots or videos related to a particular event.

Example : reports sporting events in live directly on your screens.

Server Lite hosted :

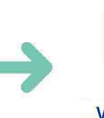

- locally (dedicated box) or VM
- in Cloud

Serveur avec canaux

example of the channel menu

The **wSVS** is a lite **version of SVS**.

It runs through any browser. You get all the necessary functions to control your scenarios. It provides the most used sections such as media, zones and banners.
